

Map it! National IHS Sexual Assault Center Locator

Project Title	Map it! National IHS Sexual Assault Center Locator
Project Summary	Collect data on and summarizing location of all available sexual assault exam centers available at Indian Health Services facilities will be the primary focus of this project. Data will then be used to create a locator map on the Indian Health Services website.
Country	United States
Agency	Indian Health Service
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	2

Project Description

The goal of this project is to heighten awareness of available resources for survivors of sexual assault/sexual abuse within the Indian Health Service specific to completion of sexual assault/abuse evidentiary exams. The intern will collect information from each IHS site regarding scope of services available (Pediatric exams, adult/adolescent exams, or both), names and amount of trained sexual assault examiners, and location/contact information for each facility. The information will then be used to create an interactive map which can be used by beneficiaries to locate a facility for an exam.

Desired Skills Interests

Additional Information

You will work amongst a team of social workers, nurses, pharmacists, data coordinators, policy and program advisors who are passionate about serving American Indians and Alaska Natives. You will get the opportunity to learn about the programs we work on related to substance abuse, suicide prevention, domestic violence prevention, forensic healthcare, trafficking, and overall wellness.
